**DR. LORRAINE'S PILLS.**

THESE Pills are now acknowledged by thousands that use them daily, to be the only medicine that fairly takes the BANNER from all others. They cause no pain or uneasiness of any kind in their operation, and require neither change of diet nor care of any kind. This medicine has actually done wonders. It has established a reputation unrivalled, on its own merits, without being puffed up controversially in the papers.

The attention of the reader is respectfully called to the following highly respectable notices of this invaluable and incomparable medicine—and it will be seen its achievements are most extraordinary, as daily experience speaks more and more remarkable cures; where other medicines had entirely failed of giving even relief.

*COUGHS, COLDS AND CONSUMPTION*

A gentleman of Boston, was so much afflicted with soreness that he could not speak loud, took Lorraine's Pills. They had an excellent effect, and rendered his voice soft, clear, and distinct in one night's time.

*PILES! PILES!! PILES!!!* The only sure remedy for the Piles is

DR. LORRAINE'S PILLS.

Never in one single instance has failed to cure that worst of all diseases. Certificates from the most respectable people of Boston, can be seen at his office.

*VERY REMARKABLE CASES!*

John Brace of Providence, had entirely lost the sight of one eye, and nearly so the other, from inflammation, was entirely cured and his eye sight perfectly restored by a steady use of Lorraine's Pills for one month. The certificate is in the hands of the General Agent, signed by three respectable witnesses.

Mr J. Greenwood has been entirely cured of a very large sore on his leg, by the use of only two boxes of Lorraine's Pills.

*SHE WAS POINTED AT!!*

She was pointed at, in Washington-street, Boston, saying that is she! That's the lady that was so weak and sick, and given over to *die*, and was *cured*, even to admiration, by Lorraine's Pills! insomuch that when she goes to church, or to walk in the street she is actually pointed at,

☞ THAT IS SHE! ☜

*DANCED IN FANEUIL HALL!*

A lady in November 1844, commenced the use of Lorraine's Pills with all the frightful symptoms of death upon her, visible in the ghostly countenance, accompanied with Despondency, Sighing, Fainting, Convulsions, &c. yet by the powerful virtues of only one of Lorraine's Pills daily, in the space of six weeks she acquired such a stomach, such a constitution! that she Danced in the Faneuil Hall in Boston.

*CAN YOU EAT OYSTERS?*

One doctor asks his patients can you eat oysters, &c, another can you drink milk, &c. Now we tell you if you take but one of Lorraine's Pills daily you can eat any thing; and acquire a constitution, fit for all occasions, and comforts and pleasures.

Mrs ——, of Salem, was afflicted with a cancerous humor that settled in her breast, took Lorraine's Pills, and was entirely cured.

Mrs. ——, of Boston, was dreadfully afflicted with sore Nipples, on account of a humor of the blood, took one of Lorraine's Pills every night, with a view to cleanse her blood, which entirely cured her.

*Dyspepsia.*—Mrs Susan Bond, Pearl-street, N. York, was effectually cured of Dyspepsia, by taking only one of Lorraine's Pills on going to bed, for eight days.

*Nervous or Sick Headache.*—Lady Smith, 189 Friend-st N Y was entirely cured of a severe nervous or sick headache, by taking three of Lorraine's Pills.

*Palpitation of the Heart.*—Miss E. West, Greenwich Place, N. York, was entirely cured of a violent Palpitation of the Heart, by a steady use of one of Lorraine's Pills every night for one week.

*Worms.*—Mr Loring Gray of N. York, cured three of his children of Worms, by giving them one pill each, for three days.

To the Honorable Senate and House of Representatives of the State of Maine in Legislature assembled.

RESPECTFULLY represent the undersigned citizens, engaged in lumbering, and the owners of timber on the upper waters of the Penobscot River and the St. John's, that the tender that species of property most valuable to themselves, and the public generally, who are or may become interested in timber near those waters, it is essential that a cut or sluiceway should be made from Telos Lake to Penobscot Pond, otherwise called Webster Pond, for the transit of lumber, and for the attainment of this end, it is further necessary that a Dam should be built to cause the water to flow into said sluiceway, on Township No. 7, Range 13

They therefore pray your Honors to incorporate the undersigned into a Company, for this purpose, and to invest them with authority to cause a sufficient cut or sluiceway to be made for the transit of lumber from said Lake Telos to Webster Pond, and to erect and maintain a Dam on Township No. 7 in the 13th Range, west from the east line of the State, to cause the water to flow into said sluiceway. And to indemnify them for the expense to be incurred in the enterprise, they pray that they may be allowed a Toll not exceeding fifteen cents for every thousand feet of lumber which may be transported through said cut, with the exception that the lumber cut on township No. 6, in the 11th Range, through which said sluiceway is to pass, may be transported therein free of toll. And with the further condition that when by the Toll aforesaid the said Company shall have been reimbursed the expense by them incurred with six per cent interest on the investment, the right to said sluiceway for the passage of lumber or other purposes shall become free to the public generally, and that thereupon the right to take toll shall cease. And as in duty bound will ever pray.

**CONCENTRATED**

**Sherry Wine Bitters.**

THE Proprietor of this Medicine offers to the public the result of an extensive practice and a thorough investigation of the laws which govern the human system.

It cannot be denied by those who have become acquainted with the singular virtues of these Bitters, that they possess a pre-eminence over all others now in use, for the diseases which they profess to cure.

It is a well known fact, that most diseases arise from a derangement of the Stomach and Bowels, in youth, adult and declining life.

The extensive sympathies which subsist between these and every other part of the living body are the foundation of nervous diseases of all kinds, Irregular Appetite, Languor, Drowsiness, Wandering Pains, Headache, Lowness of Spirits, &c.

And these, in their turn, give birth to Dyspepsia, Palpitation of the Heart, Shortness of Breath, Jaundice, Piles, Fevers, Inflammatory Humors, Coughs, and a host of diseases which embitter life and poison all sources of enjoyment.

The distinguished character of these Bitters is most striking; their operation being more or less powerful according to the violence of the disease. When used in appropriate quantity, in cases of slight derangement of the Stomach and Bowels caused by costiveness or a slight bilious difficulty and the like, whose nature needs assistance to prevent more serious consequences, they will be scarcely felt.

On the contrary, in obstinate cases, they frequently operate more powerfully, causing two or three evacuations daily, until the circulating fluid becomes purified. This accomplished, they act on the system in connection with our food, each receiving mutual assistance until the constitution is restored to a state of health and renewed vigor.

For sale wholesale and retail at the Doctor's Office, 15 Hanover-street, Boston, and by Agents, Merchants, Druggists and Apothecaries, in every town throughout the New England States. Price 75 cts a bottle, 50 cts a paper.

**FOR SALE:**

VALUABLE MILL and Water Power near the city of Bangor and on navigable water

Owing to ill-health will be sold a part or all, say an undivided moiety of the whole of the valuable mill property, situate at Brewer Village, on both sides of the large Cove, on Brewer Stream, well known as the best stream of its size running into the Penobscot river, fed by a chain of ponds and living springs, one of said ponds which is commanded by these mills, is from three to four miles long and will contain over 200 acres of water. The stream was never known to fail of a large head of water, and can be much improved by dams, &c. The mills now erected are in good order, consisting of a double saw mill, rents for $1500 per annum; and a Grist Mill, rents for $500 per annum. These mills, run the year round, they are two miles south of Bangor, at the head of the Cove, perfectly free from any risk of freshes, by stream or river, as was proved the present season. There is sufficient water power with breast wheels, on this dam for 6 saws, with their hand-ops and circulars for cutting Slabs, and which will saw from five to six millions feet per annum. Vessels load at the mill-wharf and the lumber may be assorted at the saw.

There is also a fall of water in said Cove below the present mills, which has been measured by an experienced Mill Wright, who is responsible and ready to contract to erect a dam and bridge at this place of 12 ft with tide gates, which shall use the water of the stream over again, run mills on Full entine or other suitable wheels 18 hours in the 24. A double saw mill and the grist mill may be placed here at small expense, and this improvement will add much otherwise to the profit of the whole estate. There is a good house, store, and mill house, and many fine river lots for wharfing. In short, no property of the kind in or about the growing city of Bangor is more available, or will pay more income upon an outlay of a few thousand dollars than this—it is virtually within the city, and must increase in value with the growth of the same; it has many other privileges, being one of the best locations in N. England for ship building and ere long will become a manufacturing village.

For terms and other information, application may be made to SAMUEL THATCHER, Jr. my Attorney, on the premises, or GEO. A. THATCHER, of this city. SAMUEL THATCHER.

FAMILY MEDICINE.

The proprietor has received, during the seven years his Pills have been before the public, more than

FIVE THOUSAND

Certificates of cures performed by them, a great proportion of these from Physicians of the first respectability in practice, who have themselves prescribed and constantly use the remedy, after being satisfied by experience of the superiority of the use of the ordinary remedies of Shop Medicines, such as are distributed by disciples of Sangrado, and all of them obstinate and adverse to giving withdrawing the effects of a variety of some lies for a long time. The columns of a newspaper will not allow a statement of cases in detail, but circulars may be had of the Agents containing the particulars of some of them. Suffice it here to say, that they are *the result of cases*, not fictitious or mis-manufactured for the occasion, but from persons known for respectability and integrity, and have voluntarily given their testimony for the benefit of the public. Among the cures are severe and drastic cases of DYSPEPSIA.

Justus Blondgood of New York city, Isaac W. Avery, Esq. of the same place, Rev F. H. Cox of Avon, Conn., John L. Fish, Esq. of Rochester, N. Y., have been cured by these Pills.

*LIVER COMPLAINTS,*

Mr A. B. Wilcox, of Stirling, N.Y; Dr G. E. Palmer, Stonington, Ct; T. Paine, Esq. of Columbia, Tenn; Dr J. Winter, Kingston, U. C; A. Spaulding, M. D. Hebron; Nathaniel Stevens, of Norfolk, Ct; John Grisbom, M. D. of New York, have used and recommended them, in their practice as the best article ever used.

TUMORS, &c.

Mr Andrew Vredenburgh, of Rome, N. Y. was cured of a painful and dangerous Tumor of the Breast, after having tried the prescriptions of Physicians in vain, for two years, and they had decided that nothing but an operation would give any relief.

Dr John E. Eaton of Brookfield, Mass. cured Mr Luther Stowell of a serious Ulcer of the Leg, of five years' standing, by the use of these Pills.

WORMS.

Dr McNab of Mcindoes Falls, Vt. cured a severe case of *Tape Worm* by two doses of the Pills. Hundreds of cases of other Worms are certified to, as cured by these Pills.

DROPSY.

JAUNDICE,

Hundreds of severe cases of this character have been communicated to the Proprietor, where the cure has been both speedy and permanent.

*Tic Douloureux, or Nervous Face-Ache*

As a Cathartic for Family use, and a substitute for Calomel and other Mercurial preparations, these Pills stand unrivalled in the estimation of the medical faculty of the profession generally, where ever they have been introduced. In the Spring season of the year and commencement of Summer, when the system requires an alterative or deobstruent medicine, these Pills are particularly serviceable.

☞ Look out for IMITATIONS! Be particular to inquire for "PHELPS' TOMATO PILLS," and observe the name of G. R. Phelps, M. D. is on the side label. All others are worthless, and should be avoided.

MONDAY, JUNE 15, 1846.

☞ We do not understand the object of the Gazette in a sting that we have ever expressed a doubt of the election of John P Hale to the U S Senate We certainly rejoice in the fact of his election and consider it one of the most brilliant political and personal triumphs of the age The conduct of the opposition, in New Hampshire, to destructive locofocoism, is worthy of imitation in Maine, and those are the most patriotic and consistent who will labor most earnestly to follow that example, rather than foster an impracticable, stiff backed party drill Locofocoism is hurrying the country on to swift dishonor and destruction, and to arrest the downward course of affairs, should be the desire and effort of all true lovers of their country and of mankind

Were we disposed to strike back upon the Gazette, it could be very easy to quote from its columns expressions of opinion that Texas would not be annexed and that no war need be feared on account of it It has sung its lullabies to all whig warnings and suggestions of danger respecting the Texas iniquity until these evils are upon the country But we have all enough to do, to get the country back from its waywardness and to adjust the disordered elements of social life and help bring the world into an order ly state, not to indulge in petty warfare or speculally to strain a point in the hope of making a neighbor appear in the wrong If some errors and mistakes cannot be forgotten, they may be forgiven and kept beneath the mantle

The official paper keeps up its fire upon the late Exhibition of American Goods While the exhibition was going on, charming all eyes, and delighting all truly American hearts, with the display of American skill, industry and enterprise, the organ of the Government exhausted its wit and its virulence upon the exhibition, and now that it is over, it says contemptuously, that "the national fair has struck its flag," &c The only flag raised was the "stars and stripes of the Union, the emblem of that national independence which the Protective policy has done more to preserve, and will do more to perpetuate, than the combined powers of all the free trade men and free trade principles of the world — The manufacturers raised the flag of the country It is peculiarly their own flag, and when the miscalled "Union" strikes at this flag, or pronounces it to be struck with a "wish rather to the thought," it can only be with a desire to raise the cross of John Bull or the tri color of Johnny Crapeau in its place — Express

☞ The weekly trips of the Tarrative to Castine and the islands promise to be highly popular A large party from Bucksport is expected to join the excursion on Wednesday next We hear of many parties in the neighboring towns making preparations to enjoy a trip to the ocean on some of the coming Wednesdays They will find the excursion delightful

Hooper of the Bagyaduce House at Castine intends to be ready to entertain all who call, and will have good chowders, salmon, lobsters, scollops, clams, and all the fish family in their season in good style He is fast working himself into the practice of accommodating large parties

The Skowhegan Clarion has a long account of a local affair which has caused much gossip in that vicinity The gist of the matter is that Dr Marden a somewhat noted operator in Mesmerism, came across a boy, a hard subject, who deceived him outrageously and by theft, falsehood, and much of fun order to have a pretend private clairvoyant subject caused much trouble, and who on being detected in a portion of his roguery and confessing the remainder attempted to take his own life by cutting his throat, and afflicted a slight wound He has been arraigned and bound over to take his trial in July

☞ The Belfast signal states that the loco delegation from that town in the state convention will vote for Mr Clifford for candidate for Governor, under the direction and according to the agreement of Gov Anderson If there should be no choice of the U S Senator previous to the State Convention, there will be a pretty considerable of a time then. Should Mr Hamlin fail of an election to the Senate his friends will insist upon his being made Governor of the State, or they will kick up Jack

☞ The Washington correspondent of the N Y Tribune states that the Administration are dreadfully frightened about the enormous expenses which they are heaping on the country Whether the expenses of this war be half a million a day or a million and a half a week, the people will find out by the end of the year that we have paid too much for killing a few Mexicans and rendering houseless a multitude of innocent women and children Mr Mangum has given notice that he will ask the chairman of the Committee on Finance, some day this week, about the amount of money now on hand, the amounts likely to accrue during the current year, what more will be necessary, &c

☞ Elihu Burritt the warm hearted philanthropist, as well as distinguished scholar, has recently made a visit to Washington and presented to the Mayor of that city, the address of the people of Edinburgh, in Scotland to the people of Washington, on the subject of international peace The address is signed by the Lord Provost, by Dr Chalmers, and numerous other distinguished Magistrates, Town Councillors, Professors, and other citizens, scientific and philanthropic men It will probably be published in the National Intelligencer

☞ Gen Taylor could not grant an armistice asked of him at Matamoras by Gen Arista — Commodore Conner it is said has orders for refitting his squadron for the purpose of battering down the castle at Vera Cruz These two facts indicate very clearly that the administration intend to make this a war offensive and for conquest.

☞ The Albany Evening Journal now states that Lieut Lincoln, who was actively and prominently engaged in the battles of the Rio Grande, is the son of Ex-Governor Lincoln of Massachusetts There is another Lieut Lincoln in the service, who is a native of Monroe County

## HORRIBLE MASSACRE OF AMERICAN PRISONERS.

The Galveston (Texas) News states that McChester, Lieut. Humphrey and Mr Rogers, all of whom were supposed to have been killed, have arrived at that place Mr Rogers was severely wounded and supposed to be dead by the Mexicans To this circumstance he owes his escape He was subsequently found in the chapparal, and taken to Matamoras, where he was well treated and recovered from his wounds

Mr. Rogers, accompanied with fifteen men, two women, and one child, started from Corpus Christi for Point Isabel, on the second or third instant They arrived at the Little Colorado a day or two before the 8th, where they were surprised by a company of Mexican rancheros, (cavalry,) and being overcome by superior numbers, they were compelled to surrender on a promise of being treated as prisoners of war — As soon, however, as they delivered up their arms, they were tied four together, stripped of their clothing, and robbed of all their money, of which they had a considerable sum

Having been closely bound without power of resistance, their throats were then cut with a large knife by a person apparently employed for the purpose, the women having previously suffered dishonor, In this massacre, Rogers saw his father and a brother butchered before his own turn came, and his escape was owing to the fact that when the wound upon his throat was not fatal he had the presence of mind to feign himself dead, and was with all the balance, thrown into the Colorado He managed to swim to the upper side of the river From there, he subsequently made his way to the Rio Grande, was taken prisoner, and sent to the hospital at Matamoras He was subsequently exchanged for Mexican prisoners

THE LIFE OF GENERAL WINFIELD SCOTT By EDWARD D MANSFIELD Esq. New York Published by A S Barnes & Co 1846.

We have before us a very neat and handsome volume, with good externals of paper, printing, illustrations and binding, and then its interior who can but admire the vivid and graceful style of Professor Mansfield, particularly when portraying the eventful life of Gen Scott, so aptly termed by the Indians "The Great White Warrior

The lives of few men abound with so many heroic, and so many touching incidents as character that of Gen Scott In great occasions he displays all the noble elements of a great and brave and chivalrous mind, while all occasions calculated to call up the sympathies of the human heart his is ever ready to overflow in behalf of humanity and universal brotherhood, and proving him a true, right hearted man, great in small as well as large matters These traits are happily shown forth in the volume before us He has fought valiantly for his country, and displayed great skill in her defence His wisdom has frequently been displayed as a peace maker upon the frontiers He was an early and consistent leader in the effort to have intoxicating drinks abolished from the army

Indeed his life abounds in striking incidents and the reader of this pleasant and accurate volume will find much to interest him in the several phases of of the varied and excellent character of one of the great Patriots and accomplished civilians and estimable citizens of the country

Mr W S Pritchard of this city has been appointed the travelling agent for this work in the counties of Penobscot, Piscataquis and Aroostook and is now engaged in procuring subscribers We advise every man who wishes an acquaintance with the life of a man who has conferred honor upon his country and his race and who wishes an interesting book for himself and his family to read, to procure Mansfield s Life of Gen Scott

☞ The Lime Rock Division of the Sons of Temperance have voted to attend the celebration of the Fourth of July in this city Many other Divisions are expected and the celebration will be one of great brilliancy and effect

☞ Hon Timothy Pilsbury, member of Congress from the Western district of Texas who has just taken his seat at Washington, represented Bangor a few years since in the Legislature of Maine

☞ The Washington correspondent of the Philadelphia North American thus speaks of the Message of the President on the Oregon question —

It is very characteristic of the man and of his course as Executive It is neither resolute, patriotic, nor generous in its tone and he requires a constitutional majority of two thirds before agreeing to enter upon the formation of a treaty Had he met the responsibility manfully and boldly, there would have been no hesitation in the course of the Senate He desires to save himself from accountability to the Western division of his party—to put the Senate between him and harm

A counteracting movement was the immediate effect of the detection of this purpose, and some serious difficulties were interposed to giving advice by the very men who would be willing to vote for a treaty upon the same basis

Should the Senate refuse to advise, the most alarming embarrassments are visible in the future Mr Polk has said enough in his message to convince that Chamber, that unless they pursue this course, no immediate alternative of adjustment is left open.

There are three Whigs and three Democrats absent, not including Mr Cameron, who is expected to night, being the very best posture of affairs of the required vote

It is due to Mr Benton to say, he has acted with high patriotism in his course to day

The Senate will go into Executive Session to morrow at 10 o clock and endeavor to bring the issue to a close Should they not succeed, they will sit it out on the succeeding day

The terms do not embrace anything that has not at one time or other been offered to Great Britain by the United States

You will do me the justice to say my statements of this question have been literally verified, so far

### Accident from Fixed Gas.

Yesterday two men descended into a well on Hammond St, to fasten a rope to the bottom of a pump to raise the same Before they reached the bottom their physical powers were suddenly suspended and they fell to the bottom — Another gentleman was immediately lowered by a rope to fasten another rope around their bodies, but before he reached them he became equally helpless and had to be drawn up — They were recovered before they were seriously injured, though one of them was some time in regaining his strength Such accidents may be easily prevented by dashing a bucket of water into a well before descending into it And whenever this precaution is not taken, and the gas takes effect, animation may at once be restored by dashing a little water into the well — A remedy so simple ought to be understood by everybody—[Gazette of Saturday

### Letter from Rev. Mr. Pomroy.

CITY OF JERUSALEM, April 17, 1846

*To the 1st Church and Congregation in Bangor*

MY DEAR FRIENDS—

On the 19th of March I left *Beirout*, where I had been very kindly entertained by the Missionaries, and set my face toward Jerusalem I was accompanied by Rev Mr Lawrie, who is familiar with the languages of the country, and two other gentlemen We passed down the coast by Sidon, Sarepta, and Tyre, then turning to the left we crossed over through the northern part of ancient Galilee to the city of Safed, which is on the top of a mountain, and which suffered so greatly by an earthquake a few years ago From a mountain in the vicinity of Safed, I had a view of Lebanon and Hermon—of the lake Merom and Tiberias, and the valley of Jordan from the sources far down below the Sea of Tiberias—on the East, over the mountains and regions of the ancient Amorites, in the South were seen Mount Tabor, and the mountains of Samaria and on the West, Mount Carmel and the Mediterranean Sea It was, without exception, the most beautiful and magnificent view which I have ever had—and I never expect to see the like of it again

From Safed we came down to the Sea of Tiberias, or Sea of Galilee, where we spent a day wandering upon its beautiful placid shores where the Savior spent so much of his time, and where he wrought so many miracles Capernaum, Chorazin and Bethsaida are no more Here the Savior walked upon the waves, and said to the tempest-tossed sea, "peace, be still" From this lovely spot we went to Nazareth, where He spent his childhood and youth, and indeed the greater portion of his life It is situated in a sweet tranquil valley in the mountains of Galilee, a little to the north of Jerusalem Here we rested nearly four days—visiting, meanwhile, Mount Tabor

From the hills about Nazareth, the prospect is very extensive "Cana of Galilee" is but a few miles distant Here, also we could see Tabor and little Hermon—the villages of Endor, Nain, Mount Gilboa, and many other spots of sacred interest From Nazareth we went down into the plain of Esdraelon of Jezreel, and passing near the ancient Shunem, we visited the city of Jezreel, on the western slope of Gilboa, near which is still seen the fountain where dogs licked the blood of Ahab From thence we passed through Samaria, visited the ancient city of Samaria, and also the city of Sechem or Sychar, near which is "the parcel of ground that Jacob gave to his son Joseph Here are Mount Ebal and Gerizim Here is "Jacob's well, where the Saviour sat and held that interesting conversation with the woman of Samaria, who came to draw water

From Sychem, now called Nabulus, we passed on by Bethel and Ramah, so often mentioned in the old Testament, towards Jerusalem On the morning of the 3d of April, from the summit of a hill, we first caught a glimpse of the Holy City, some three or four miles distant We instinctively paused and gazed in silence at that wonderful city—"the city of the great King In one hour more we had entered the Damascus gate, and were at our lodging, in the house occupied by the Russian consul, Dr Shultz We were nearly sixteen days on our journey from Beirout—"dwelling in tents The weather was in all respects, delightful, and the whole country covered with verdure and flowers, olive groves and fields of grass The fig tree was putting forth its leaves, showing that "summer is nigh

I have been in Jerusalem more than a fortnight I have visited nearly all its interesting localities, and those in its vicinity, have been at Bethlehem and the "pools of Solomon visited Jericho, the Jordan, and "the Dead Sea, returning by the "wilderness of Judea, spending a night in the midst of it, at the convent of "Mar-Saba

I cannot express to you the interest with which my eyes look on these scenes, hallowed by the presence of the Savior and his disciples Here you see the valley of Gihon, of Hinnom, of Jehoshophat, the Mount of Olives, the Garden of Gethsemane, the Potter s field, Mount Sion, "the mountains round about Jerusalem At every turn you meet with some interesting illustrations of the word of God I cannot begin to specify them—my paper will not allow it I have been greatly interested in my journey thro Palestine in all respects, and have seen almost every thing that I have a desire to see

Of the people who inhabit this country, I have said nothing—and will not at present speak—except to say, in the words of Scripture—"They are corrupt, they have done abominable deeds there is no fear of God before their eyes I have passed through some regions of danger but have received no injury The God of Abraham has been my keeper by day and by night

It is Friday Next Monday I expect to go down to Joppa and take the steamer for Beirout From Beirout I shall set my face toward home, and I hope to see you in the month of July or early in August My health has been uniformly good since I left Athens, and I have accomplished all that I expected in my tour thus far, and indeed more God grant that when I come to you again, it may be "in the fulness of the blessing of the gospel of peace My last intelligence from you was dated the 1st of December. When I reach Smyrna, I hope to receive letters informing me of your estate May the blessing of Almighty God be upon you all, both old and young, and "the peace of God which passeth understanding, keep your hearts and minds in the love of God, through Jesus Christ our Lord

Your affectionate friend and Pastor,

### From the Union of Saturday

While our soldiers are crossing the Rio Grande in their armed pursuit of a just and honorable peace with Mexico which shall place our citizens and our soil in security from further invasion, our people are pressing on to the occupation of Oregon, and especially of California

By this time, the news of the war which Mexico has seen fit to wage upon us, must have reached our squadron in the Pacific If this be the case, we suppose that an American force may possibly at this moment be in possession of the principal harbors of California

Under these circumstances, any nation less infatuated than Mexico, would not be late to present herself to us in the attitude of peace But her councils, distracted as they are, seem to be guided by a different spirit, and though we may regret, on some accounts, the necessity which thus forces us to an armed vindication of our rights, no man can doubt that the path of our policy is clear, that it is our duty to urge an attack at once upon every assailable point on the Mexican frontier, and to complete our preparations as speedily as possible for pressing on into the heart of the Mexican country, to demand and to dictate peace, if need be within the Mexican capital

### The Tallest Kind.

The editor of the St Louis Gazette thus concludes an article on the present position of our country It is first rate —

"Finally," lastly, filthly and to conclude, this is a great country, a glorious country, a real Bobadil of a country We can whip twenty countries a day, hand over hand Fetch 'em on! We have no doubt we shall see the day, when the stars and stripes will float over the tower of London and the palace at Windsor! When the mighty flag staff of the Universal Yankee Nation will be planted in the centre of Europe, and one universal roll of striped bunting, shall overshadow at once the dome of St Peter s, the Kremlin of Moscow, the Mosques of Constantinople! Hasten the time, when the ebony maidens of Timbuctoo shall dance at St Louis, the Capital of all creation, to the tune of Yankee Doodle, with the Senator of Russia, or the representative from Hindostan!

## CONGRESS

### OREGON TREATY SUBMITTED TO THE SENATE.

Correspondence of the Express.

Washington, June 10—5½ P M

The information I sent you on Monday afternoon, disbelieved by some and denied by others, turns out to be true The Oregon question was submitted to the Senate to-day by the President at the hands of his new acting Private Secretary, Mr Trist, the Chief Clerk of the department of State The Senate at once suspended an interesting debate upon the important bill, supplementary to the act of the 13th of May, declaring war against Mexico

The Vice President, in answer to an inquiry, having assured the Senate that the message was of an Executive character, the motion was submitted to proceed to the consideration of Executive business, and the doors were closed for the balance of the day

The correspondence which accompanied the message was very voluminous, and the Senate for three hours have been sitting with closed doors

It is pretty well understood that the Oregon question is the one under debate,—that Mr Pakenham has asked the Secretary of State if he would submit the proposition to the Senate and the answer is of course the fact that the question is now before the Senate

The President has asked the advice of the Senate in reference to the proposition, which will be offered, if it may be accepted It is said that this offer is the line of 49° as the dividing line between the two countries,—the free navigation of the Columbia, mutual advantages in regard to the Straits of Fuca, with many important details in regard to Hudson s Bay Company, &c I venture, however upon no precise information as to these details The subject excites an interest here every way corresponding to its importance, and this is all I can now say E B

Washington, June 11

The action of the Senate to day, in time, has been divided between the consideration of Executive business (upon the Oregon question) and an interesting debate upon the supplementary war bill The Military Committee sanctioned not one of the amendments of the House All good and bad, were condemned alike, and thrown out

The Senate, 26 to 22, agreed with the House that there should be but one additional Major General, and two Brigadier Generals All the other amendments of the House were disagreed to

In the House

The important question has been the Navy Appropriation Bill The amount in the printed bill (repeated January 8th,) is six millions three hundred and fifteen thousand, three hundred and eighty dollars and ninety seven cents in addition to which one million is asked by the Chairman of the Committee of Ways and Means for subsistence, and two hundred thousand dollars by Mr King, of Georgia, for transportation The last amendment is from the Naval Committee

No spirit ration is allowed, and compensation therefor, is to be paid in money This amendment was moved by Mr King, and agreed to by the Committee

The Committee rose without a decision upon the question

A Joint Resolution was submitted from the Committee of Ways and Means, providing for the payment of volunteers called out upon the requisition of General Gaines and Taylor The State demands upon the Treasury are to be settled upon just and equitable principles, but the Joint Resolution concludes with the following provision intended as a reflection upon General Gaines

Provided, That nothing herein contained shall be construed to sanction or approve the conduct of General Gaines, in calling upon the Executives of any of the States for Volunteers or Militia, or in levying or raising troops, or mustering or receiving them into the service of the United States or the appointment of officers therefor, without authority of law

Mr McKay asked for the speedy passage of this Resolution, and it was passed upon the instant under the spur of the previous question The money is to come from the ten million of dollars asked for by the President, and granted by Congress on the 13th May

### Later from the Army.

The steamship Alabama arrived at New Orleans, on the 3d inst, from Brazos Santiago, which place she left on the 28th ult Steamers Augusta, Leo, and Col Harney, and schrs Waterman and Eulala were all blown ashore The Harney will be got off The gale blew down all the tents upon the Point, leaving the sick and wounded exposed to its fury Nothing new had been received from Matamoras. The volunteers had received orders to march to Matamoras by way of Barita, and were all anxious for an engagement with the enemy

The A brings home several officers wounded in the engagement of the 9th

Col Peyton Regiment disembarked, and encamped on the beach, where were already Col Davis Regiment All volunteers were expected to rendezvous at Barita, which is at present the head quarters of Gen Smith

Captain May with a squadron of dragoons, pursued the retreating Mexicans some sixty miles west of Matamoras but so quick was their march that they could not even come up with their rear guard He is satisfied that the Mexican force at that point at the present time is not more than four thousand men Every thing goes along as smoothly as possible at Matamoras —the citizens are all minding their own business, many of them are making money by trading with the soldiers, and all learning to believe that the Yankees are not such outside barbarians after all as they were led to believe them to be

It is now ascertained—and Gen Taylor, who will not be accused of exaggeration, admits it—that the loss of the Mexicans on the 8th and 9th —particularly on the latter day—were much larger than was at first supposed A gentleman who went through the hospitals in Matamoras, and who took some pains to ascertain their number, thinks it must amount to six hundred

Many of the cannon, which they sunk in wells and elsewhere, have been recovered

Capt Page is recovering May Jesse, who crossed the country from Fort Jesup, and for whose safety fears were entertained has reached the camp in safety

A quantity of the trophies of victory, taken or found on the battle field, is deposited at Point Isabel They form quite a cabinet of curosities

From the New Orleans Delta, of June 4

### Later from Mexico.

By the brig Helen McLeod, Capt Marston, arrived yesterday from Vera Cruz, we have papers from that city to the 24th ult, being three days later than those brought by the barque Louisiana the day before

The editor of the Indicador of the 24th ult, says that he has been informed, from a very reliable source, that the steamers Montezuma and Guadaloupe had actually sailed for Havana, under the British flag

The notice of blockade is dated 20th of May To this the Indicador asks "And are we to remain calmly looking on, seeing the hated flag of the stars waving in the breeze? Shall we be citizens less worthy than those of Matamoras, whose heroic valor will be spoken of as an immortal example of bravery? No! a thousand times no! And be he a thousand times cursed, who in such a trying time as this abandons his post on the walls of heroic Vera Cruz" The editor goes to say that the Mexican people should have no further consideration for their enemies, and the cannons of the Castle of San Juan de Ulua should be fired at the first American vessel that comes within their range.

The same journal, referring to the order issued by the government that every American citizen who should not leave the port within the time stipulated would be sent twenty leagues into the interior, recommends that none of those falling under their grasp should be pardoned Insult for insult, and life for life, is his motto

On the 8th, El Indicador calls on the government to arm every one of their vessels as privateers, and to give letters of marque to every Mexican who asked for them, in order, as the editor significantly expresses it "to give the Yankees hell!" The article winds up by hoping that Mexicans will not betray their country but pay the Americans in equal coin By an advertisement in that paper, we see that the Ayuntamiento of Vera Cruz calls on the public, by order of the government to devote three days (25th, 26th, 27th) in offering public prayers for the success of the Mexican arms against the Americans

We also notice that the British mail steamer Tay was advertised to leave Vera Cruz for Havana on the morning, of the 26 inst and would take on board, as bertoiers, all specie and cochineal that should be offered for shipment

[From the St Louis Republican, of June 2]

### Important Rumor—Collision between Mormon and California Emigrants.

The officers of the Radnor, which steamer arrived from the Missouri river, reports that a messenger arrived at Kansas from the plains, while they lay there, who reported that a collision had taken place between the party of Mormons now emigrating to California, and Gov Boggs s party journeying to the same destination In the encounter, Biggs and several of his company were killed The last intelligence we had from the plains spoke of a threat which had been made against the California emigrants by the Mormons, and this may have given rise to the report of a collision We give the intelligence as we received it A few days will bring us more particulars, if the messenger's story be true The settlers at Kansas were arming to go out to the assistance of the emigrants

☞ The New York Express of Friday evening states that the banks negotiate all good paper that is offered by their regular customers, and in the street good paper is taken at 7 per cent

There is an improvement in everything Merchants and every class, feel as if a new era was about commencing The Flour market seems to have touched its lowest point $3,37 a $4 for Michigan, Round hoop Ohio 3,75, New Orleans 3 75, Richmond Country, Georgetown and Alexandria $4a4 25

On Thursday all the good Flour afloat, was taken for Eastern consumption, and but little arrived on Friday

The Corn market was quite active, about fifty thousand bushels changed hands There is, however, great anxiety to hear the result of the Oregon question, the final vote, if full, will give quite a spring to business

NEW ANTI BALSAM

OF LIFE.

THE

PATENT SEMPLE

For Colds, Coughs, Asthma, and other Diseases of the CHEST and LUNGS.

BUCHAN'S HUNGARIAN BALSAM, the Great English Remedy for Pictoral and Pulmonary Diseases, still stands unrivalled and unsurpassed as the most elegant, agreeable, and effectual curative of these formidable complaints, now known to the civilized world

Three years of trial in the United States, during which time it has been distributed from Maine to Florida, has only served to establish its pre eminent merit in all parts of the country as the great and

ONLY RELIABLE REMEDY

in the worst cases of Pulmonary disease, and the best and most agreeable curative of all the slight forms of colds, coughs and inflammation, that can possibly be used

*SPITTING OF BLOOD!* This fearful symptom of approaching Consumption is speedily checked and prevented by the use of Buchan s Hungarian Balsam which heals the affected membrane, ulcerates the tubercles and restores the vital organ to a healthy state

*REMEMBER THIS* Spitting of Blood always arises from a tendency to Tuberculous disease and if not checked at the outset, will sooner or later deliver up to death A person who raises blood once, will raise blood again unless a proper curative is immediately employed!!

*PAIN IN THE SIDE* This distressing symptom of Consumption arises from inflammation of the Lungs or the Membrane call d the Pleura, or from Bronchial affection of the air passages In either case it is a very dangerous indication of disease It prevents full and free breathing and wears away the natural strength of the system The cause of this symptom should be removed at once, and nothing can possibly effect the object so speedily and happily as the Great English Remedy discovered by Dr Buchan which is entirely vegetable in its ingredients, and perfectly harmless in all its qualities

*LIVER COMPLAINT* In cases of Consumption the Liver is always more or less affected, and also the Spleen Pleura and small intestines On dissecting Consumptive patients, Tubercles are often found in these organs particularly upon the Liver which also becomes fatty, oily and swelled The effect of the Hungarian Balsam in diseases of the Liver, especially in all the of a nervous nature is decided and powerful *Simple disease of the Liver, unattended by Consumption is speedily cured by its use*

*WINTER COUGH* The harsh dry, hacking cough so fatal to aged people and even in a low state of health is happily affected by the *Hungarian Balsam*

It warms the stems and stimulates the whole breathing apparatus releases all mucid matter and other foulness purifies and enriches the blood, improves the secretive powers of the Liver Spleen and stomach regulates the digestive organs, and imparts a new life to the whole animal system

*BRONCHITIS* Bronchitis Difficulty of Breathing Harsh Cough Shortness of Breath Tightness of the chest expectoration with pain in the side arising from the throat to the lungs are speedily and effectually cured by the use of the above celebrated remedy for all of the *Dr Buchan*.

This is a very painful wearing and injurious complaint and always has a power of tender excitement and irritation the Lungs and thereby induce the worst form of Pulmonary disease Be warned in time, be relieved and employ the valuable remedy

*TUBERCLES ON THE LUNGS!* The Hungarian Balsam is the only popular remedy which has any power to dissolve, remove, and cure Tubercles on the Lungs Incredible as this is generally esteemed we have the most abundant and conclusive evidence to sustain the assertion that such is its direct and immediate effect in all cases where there is no natural organic defect In fact, so confident is the American Agent of its power to cure the worst form of this disease that he prefers (as he has frequently stated) that it should be used by invalids who have been *PRONOUNCED INCURABLE* by the most eminent physicians rather than by persons affected with some slighter form of disease—in order that its triumphs might be more apparent He boldly declares that it will cure Tuberculous disease and confidently solicits a trial in the *worst of cases*

*EXPECTORATION!* Free Expectoration is the most important object to be attained in all attempts to cure diseases of the Chest and Lungs The Cough which is so distressing is simply the result of a desire to expectorate, and as long as foul matter exists in the air passage it will continue to irritate the membrane and provoke a cough Coughing is an attempt to throw off this matter, and expectoration gives great relief Inability to expectorate is the latter stages of Consumption is the cause of death

The Hungarian Balsam is a *great Expectorant* — It dissolves the morbid and diseased matter in the air passage changes it from a thick, glutinous substance, to a thin harmless fluid and throws it off with the greatest possible ease and comfort to the patient There is no better medicine in the world, if its expectorant quality alone be considered

*SPASMODIC ASTHMA* Simple or Spasmodic Asthma, has no better remedy than the Hungarian Balsam This painful and destructive affection which resists almost every thing else, yields to the all powerful influence of this great remedy, as readily as any other form of Pectoral disease

*CONSUMPTION!* Consumption has been graphically described as a '*Shrinking of one's self*' The Hungarian Balsam by its cleansing warming, softening and animating power, produces not *shrinking* but *expansion!*

Before its delightful influence, all chills, fever, night sweats, costiveness, blotches on the skin a hot flushed skin, an uncertain strength, emaciation and decline—disappear, like the poisonous dews of night before the glorious morning sun! This is no delusion but demonstrable fact, sustained by incontestible proof from all parts of the country

*BE WISE TO DAY!* Delay in any case of Consumptive tendency, is emphatically Death under all ordinary treatment The Hungarian Balsam is a great ANTIDOTE, as well as CURATIVE If you have any symptoms above described, be advised in time

Sold in large bottles at only one dollar per bottle

It seems to be a great puzzle to many people how it is possible that at this warehouse, garments of such richness are sold for so small an amount of money but the reason for it is just this that prime bargains draw custom and increase trade, and it is better always to do a large business at small profits than a small business with large profits The public begin to understand the matter, and this accounts for the unsurpassed popularity of

SICKNESS IN CHILDREN

And the suffering which they undergo from WORMS, often lead to a fatal termination while the cause is never suspected. Offensive breath, picking at the nose, grinding the teeth during sleep, starting in sleep with fright and screaming, troublesome cough, and feverishness, are among some of the *Prominent Symptoms* of the presence of worms. A timely use of

SHERMAN'S WORM LOZENGES

Will immediately remove all these unpleasant symptoms and restore to perfect health. Sister Jerusalem, Superior of the Catholic Half Orphan Asylum, has added her testimony in their favor to the thousands who have gone before. She states that there are over 100 children in the Asylum, and that they have been in the habit of giving Sherman's Lozenges, and she has always found them to be attended with the most beneficial effects. They have been proved to be infallible in over 100,000 cases.

CONSUMPTION,

Influenza, Coughs, Colds, Whooping Cough, Tightness of the Lungs or Chest, may be cured. Rev. Darius Anthony was very low from Consumption, Jonathan Howarth, the celebrated temperance lecturer, was reduced to the verge of the grave by raising blood. Rev. Mr. Dutcher of New York, the Rev. Mr. De Forest, Evangelist in the Western part of this state, Rev. Sebastian Streeter of Boston, the wife of Erasmus Dibble, Esq. in Andover, and hundreds of others, have been relieved and cured by proper use of

SHERMAN'S COUGH LOZENGES.

And no medicine has ever been offered to the public which has been more effectual in the relief of those diseases, or which can be recommended with more confidence. They allay all tickling irritation, render the cough easy, promote expectoration, remove the cause, and produce the most happy and lasting effects.

HEADACHE,

Palpitation of the Heart, Lowness of Spirits, Sickness, Despondency, Dimness, Colic Spasms, Cramps of the Stomach, Summer or Bowel Complaints, also all the distressing symptoms arising from free living or a night of dissipation are quickly and entirely relieved by using

SHERMAN'S CAMPHOR LOZENGES.

They act speedily and relieve in a very short space of time, giving tone and vigor to the system, and enable a person using them to undergo great mental or bodily fatigue.

RHEUMATISM,

Weak Back, Pain and weakness in the Breast, Back, Limbs and other parts of the body are speedily and effectually relieved by SHERMAN'S POOR MAN'S PLASTER, which cost only 12½ cents and is within the reach of all. So great has become the reputation of this article that one million will not be in to supply the annual demand. It is acknowledged to be the best strengthening Plaster in the world.

BEWARE OF IMPOSITION.

Dr. Sherman's Poor Man's Plaster has his name with directions printed on the back of the Plaster and a fac simile of the Doctor's signature under the directions. None others are genuine or to be relied on. Dr. Sherman's Warehouse is No. 106 Nassau, New York.
